

Take back city with billboard ban

There are too many billboards in the Rapid City City Limits. I have seen too many with nothing on them — a few near Highway 79.

We need signs to be moved from a 1,000-square-foot-radius to a 2,000- square-foot radius from each sign. If the measure is passed, the sign company should comply and remove the sign. We should not grandfather any signs.

If signs are vacant for more than six months, the sign should be taken down. All signs in the right-of-way should be taken down. No more digital billboards should be allowed. We do not need the billboard sign credits. Throw them out.

Signs should be no then 250 square feet and 500 square feet on a double sign.

We the people of Rapid City are speaking out and saying we should take back our city and vote “yes” on the billboard measure.
